

Introduction to Peter Pan

Holmer Green Senior School, Year 6 Transition Activity

Hello, Year 6!

Here at Holmer Green Senior School, when you come up into Year 7, we will be studying **Peter Pan** by J.M Barrie.

It is a fairy tale about a young boy named Peter Pan who was born during the Victorian Era but was reluctant to grow up. He found the idea of being an adult with responsibilities terrifying! So, he flew away to a magical island called **Neverland**.

There are many different areas in Neverland which are listed on the next slide. We're challenging you to **design your own Neverland!** You can come up with your own areas or you can use the ones of the next slide to help you.

There's also a template on the last slide that you can print out and use.

We're all looking forward to seeing your incredible designs!

Areas of Neverland

- **Neverland Plains** - A location where the Indian tribes reside.
- **Skull Rock** - A location where the "pirates are said to hide their booty."
- **Crocodile Creek** - A swamp environment where the Crocodile lives.
- **Mermaid Lagoon** - A location where the beautiful mermaids of Neverland dwell. They love to sing, comb their long hair and play the "mermaid games" in the shallow waters near the shore. However, at night when the moon is out, this area becomes a very haunting and dangerous place for mortals. It's considered to be the most treacherous place in the Neverland.
- **The Black Castle** - An old ruined and abandoned castle, decorated with stone dragons and gargoyles. It is one of the places where Tiger Lily is taken by Captain James Hook
- **Neverpeak Mountain** - A huge mountain that is right in the middle of Neverland. According to Peter Pan in Scarlet, when a child is on top of Neverpeak Mountain, he or she can see over anyone and anything and can see beyond belief.
- **Pixie Hollow** - This is where Tinker Bell and her tiny fairy friends live and dwell.
- **The Neverseas** - The seas around Neverland. Some small islands can be found in it, and it seems that it can communicate with the real seas, as a normal ship comes across the path of a young James Hook in The Pirate Fairy.
