## Spanish

# Curriculum Intent

Work Hard, Be Kind, Have Passion

From the very start of KS3 in Year 7, our aim in MFL is to incite an interest in, and passion for learning languages. Typically, newly arrived Year 7 students have a mixed, often negative view of languages so we give them reasons to learn languages, how useful they are and real-life examples of where languages have taken people (celebrities and others).

During their three years in KS3, our students are focused on three main strands of language learning: vocabulary, phonics and grammar. They have weekly vocabulary tests on words that are learnt online, phonics practice and grammar acquisition. Our intention is that by the end of Year 9, they are accomplished at producing short paragraphs of writing in preparation for GCSE as well as being able to understand longer spoken passages and be able to ask and answer questions. In addition, we increase their phonics acquisition with regular revisiting of phonemes and practice saying words, by building on sounds and phrases already met and putting them together. By the time our students reach Year 10, they are well prepared for the jump up to GCSE.

Our students in each year group have collaborative, fun projects which they work on, linking to other areas of the curriculum, also giving them exposure to authentic Spanish texts, films, publicity and marketing.

Outside the curriculum, students in Year 7 and 8 have the opportunity to attend Languages Club, offering them a variety of activities, from cooking renowned French or Spanish dishes, to activities to celebrate certain special days in Spain. In Year 9, students are invited to apply to be a Language Ambassador, which gives them the opportunity to promote languages throughout the wider school.

We offer language trips to Spain for KS4 year groups which allows them to experience far wider communication possibilities and gives them a real, valuable and authentic insight into a different culture.

We are proud of what our students achieve over their seven years here and encourage their love of Spanish to continue beyond the classroom and beyond secondary education.
